

Through These Doors ... Preparing for Our Future

As we express our gratitude, we must never forget that the highest appreciation is not to utter words, but to live by them.

John F. Kennedy

For more than 40 years, Gateway Community College has been a magnet of opportunity for people of all ages and backgrounds throughout Greater New Haven and beyond. Now, the College is preparing for a promising future at its new downtown campus. The block our new facility will soon occupy has been a key part of the City's historic tapestry. The former home of two major department stores; it once represented the center of regional commerce and economic vitality ... and we believe our state-of-the-art center of education and opportunity will once again support that role.

At Gateway, we talk about the idea of "Your College – Your Future." The Gateway Community College Foundation and its generous donors and supporters are helping to build that future on the bedrock of tradition and excellence in education. Together, we're helping to build the region's character and hone its competitive economic edge.

On behalf of the Foundation, the College, its faculty and staff and, most especially, the students whose lives are changed by their Gateway experience, thank you for your belief in us as we partner with the business community to educate tomorrow's workforce and develop tomorrow's leaders.

Sincerely,

Dorsey L. Kendrick, Ph.D., President
